

ODG

```
graph TD; A[ODG] --- B[Algoritmy]; B --- C[Kodeky]; C --- D[ODG na bitových rychlostech];
```

The diagram is a vertical hierarchy with four rectangular boxes. The top box contains the text 'ODG'. A vertical line descends from its bottom center, then turns horizontal to the right to connect to the top center of the second box, which contains 'Algoritmy'. This pattern repeats: a vertical line down from the second box, then a horizontal line to the right to the top center of the third box, which contains 'Kodeky'. Finally, a vertical line down from the third box, then a horizontal line to the right to the top center of the fourth box, which contains 'ODG na bitových rychlostech'. The boxes are arranged in a descending staircase pattern from top-left to bottom-right.

Algoritmy

Kodeky
